To

The Secretary to Government,
Law Department, Bangalore

Subject - Tenders for the construction of cement concrete ovoid sewer from the last manhole constructed by Mr Ramachandra Rao contractor in Sunkal Farm up to Koramangala disposal site

SIR

I have the honour to inform that in the comprehensive Scheme a total of Rs 3,60,000 was provided for the construction of main ovoid sewer up to Koramangala disposal site The contract was given to one Messrs Ramachandra Rao & Bros , and their contract was cancelled as intimated in this office letter No C 81-1501 dated 4th May 1944

Tenders were called for for carrying out the work in as short a time as possible as time has been lost by the irregular work and slow progress shown by the last contractor The Special Officer, Bangalore City Drainage Division called for tenders in two portions Part I and Part II, I enclose herewith the tenders received in this connection

There have been certain points that have to be brought to the notice of Government

A The accountant in his office Note has pointed out that it is irregular to call for quotations in two portions for one single estimate that has been provided for in the comprehensive scheme and that there would be objection from the Comptroller, for getting two sets of rates for a single estimate

This is a question in which certain peculiar situations have arisen

1 that the tenders had to be called for so that the work may be taken on hand as quickly as possible Tenders had to be called for in two sections so that the work may be completed as early as possible to make up the time lost

2 One of the tenderers credited the earnest money deposit and forwarded the challan of the deposit money one day later

3 One of the tenderers Messrs Gannon Dunkerley has given

has given intimation that the tenders will hold good only for one month from the date of the tender

Under the circumstances, as there is necessity for getting through the work as early as possible, I request that you may be so good as to obtain orders of Government approving the tenders of the two lowest tenderers viz , Messrs M Coomaraswamy Pillai & Co for Part II and Messrs Gannon Dunkerley & Co , for Part I

A copy of the letter of the Special Officer, Bangalore City Drainage Division and the tenders received are herewith sent

I have the honour tobe,

Sir,

Your most obedient servant,

O Ramaswamy

DIRECTOR OF PUBLIC HEALTH

7

Letter No 343 dated 15th May 1944 from the Special Officer, Bangalore City Drainage Division, Bangalore, to the Director of Public Health in Mysore, Bangalore

---

Subject - Tenders for the construction of cement concrete ovoid sewer from the existing manhole in Sunkal Farm up to Koramangala disposal site, Bangalore City

---

I have the honour to submit herewith two comparative statements and the relative tenders in original with all the connected records in connection with the above work The tenders were called for in two parts viz , Part I for the portion from Manhole 60 to 77 up to junction of Hosur Cantonment road and Part II for the portion from Manhole No 77 (junction of Hosur Cantonment road) to disposal site at Koramangala

Part I

Three tenders were received from the marginally noted contractors and the tenders of Messrs Gannon Dunkerley & Co ,

Messrs M Coomaraswamy Pillai & Co Messrs M Narasimiah & Bros Messrs Gannon Dunkerley & Co	for Rs 1,59,467/- happens to be the lowest and the

next higher tender is that of Messrs M Coomaraswamy Pillai & Co , for Rs 1,60,040/- It has to be mentioned that Messrs Gannon Dunkerly & Co , actually credited the required earnest money deposit on the next day after the tenders were presented (Vide their letter No 306/BA enclosed as already reported in this office No 333 dated 4 5 1944 Further the tenderers were notified not to put any time limit for the acceptance of the rates tendered But the contractors have put a condition that their tender may be considered valid only for one month from date i e , 3 5 1944 in their letter No 307/BA enclosed Under the circumstances, it is a point for orders as to whether the tender of Messrs Gannon Dunkerly & Co , which happens to be the lowest may be considered valid and accepted

PART II

Four tenders were received in the case of this work from the marginally noted contractors and the tender of Messrs

Messrs M Coomaraswamy Pillai & Co , for Rs 1,61,593/- happens

Messrs M Coomaraswamy & Co ,	to be the lowest and may
Messrs Gannon Dunkerly & Co ,	
Messrs M Narasimiah & Bros	be kindly recommended for
Messrs R A Rajagopal & M Shama Rao	
	acceptance

3 It has to be mentioned that the estimate for the work of extending the main outfall from Sunkal Farm up to Koramangala tank (12,000) for Rs 3,60,000/- was sanctioned in G O No I 362-64/M1 32-110-169 dated 18th July 1941 and Messrs N Ramachandra Rao and Bros were entrusted with the work and then contract was recommended for cancellation in this office No 228 dated 6 2 1944 addressed to the Director of Public Health in Mysore, Bangalore, for not giving the stipulated progress on the work Now the work is divided into two parts and tenders are called for separately for different portions of the same estimate This leads to different rates being accepted for identical items of work in one and the same estimate This is obviously objectionable from the audit point of view and is for consideration and orders

In conclusion, it has to be stated that against the sanctioned estimate of Rs 3,60,000/- ~~and~~, Rs 2,91,900/- only will be for the work portion for the work of constructing the main ovoid sewer as provided in the comprehensive scheme The total outlay to end of March 1944 is Rs 26,429/- and the total of lowest tenders for both portions now submitted for acceptance amount to Rs 3,21,060/- Other works charged to this estimate amount to Rs 7,666/- Thus the excess cost over the estimate will be Rs 50,973/- as noted below

Work portion of the estimate		Rs 2,91,900/-
Total progress to end of March 44		Rs 26,429-1-0
Amount of lowest tender for	Part I	Rs 1,59,467-0-0
-do-	Part II	Rs 1,61,593-0-0
Total probable outlay		Rs 3,47,489-1-0
Excess over the work portion of the estimate		55,589/-
	or	Rs 56,000/- approximately

The estimate for Rs 3,60,000/- will be suitably revised and submitted for sanction after the work is completed This extra cost is proposed to be met out of the general savings under the Comprehensive scheme for Rs 41,25,141/- sanctioned by Government in their order No I 342-26/M1

Ml 90-41-4 dated 1st November 1941 I request that early orders of Government may kindly be obtained and communicated

ORDERS

NOTES.

subject Reg Sanction to the acceptance of Tenders calling for quotations in two portions from one Single Estimate / construction of cement concrete in drains from the East manhole constructed on Sinthal Down up to Hiranyangala outfall

Owing to the cancellation of the contract of M/S Ramachandra Rao and Brothers for the above work the action taken by the Special Municipality Drainage Committee may be accepted in calling for quotations and in two parts to carry out the work in as short a time as possible and thereby getting the work done by two agencies. But regarding the payment of two sets of Rates for the same Estimate is not regular

If approved, this may kindly be forwarded to W B No IV for opinion

Sd
19.5.42

Why the estimate is splited in two parts while calling for tenders has been explained, it is stated to be due to the intention of getting the work completed early.

The tenders for recommend for approval are only the lowe

for

Passed on to Capital Work IV for favour of Kind remarks

19.5.42

WD 05252—GPB—22 500—11 6 40

In the two portions, but the two are different. If the lowest tenders are to be approved the differences in rates for the same items in the two sections are inevitable. In view of the fact that the work is to be got done expeditiously and the acceptance of lowest tenders would only be favourable to Govt there seems to be no objection to accept the lowest tenders though there would be disparity in rates for the identical items in the two sections. Vide also note 3 of Para 112-5 of M P W Code in which the P W Executive officers may split up the work into sections & give out the work for execution to different contractors.

19/5

B

* In accordance with Note 3 of Art 112-5 of M P W Code (at the last line of Page 25) the P W Officers may give out the Different contracts a number of contracts relating to same work in the interest of public service, if the Director's Proposal for the acceptance of Different contractors say M/S M C P Nagaraja and G. D and Co

Rly 25/5

The ammunition rules or not that Govt want an opinion now from it & Govt Part 2 was an opinion is desired

Draft Reply

Returned with compliments

3) In view of the fact that the work is to be got done expeditiously and the acceptance of lowest tenders may be accepted under Note 3 of Para 112-5 of M P W A Code in which the works may be split up into sections and may be given to different contractors though there would be disparity in rates for the identical items in the two sections
